CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

The college follows the three year undergraduate curricula as prepared by Magadh University, Bodh-Gaya, of which it is a constituent unit. The shortage of teaching staff and the low teacher to student ratio are serious drawbacks, but the college strives to provide quality education within its limited means. The college library stores syllabus-oriented textbooks as well as reference books for all sixteen departments currently operating in it. Students are encouraged to make use of the collection available in the library. The library also provides a spacious reading room and access to Smart classrooms are used to deliver audio-visual lessons to make the classes more interesting. The college keeps record of all students, including their performance in the university examinations and their participation in extra-curricular activities. Examinations are conducted according to the schedule prepared by Magadh University, Bodh-Gaya.

1.1.2 – Certificate/ Diploma Courses introduced during the academic year

4.4.2 – Procedures and policies for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc. (maximum 500 words) (information to be available in institutional Website, provide link)

The laboratories of the various departments of the science section and the department of Geography are used to hold classes on a regular basis. The college library offers assistance to students from all streams and plays a crucial role in quality control among students in face of a debilitating scarcity of teaching faculty members. Computers have been installed in the Accounts section, the offices of the departments, the library, and the examination section. Besides, several computers are installed in the BCA section which provides undergraduate courses on BCA, BBA, and BLIS, all of which require extensive use of computers for both teachers and students. As far as classrooms are concerned, the college has a total of ten classrooms with necessities such as benches and white boards, and it has turned five of these into smart classrooms equipped with a display screen and a projector each. Apart from this, the Madan Mohan Malviya Hall is equipped with a display board and a projector of its own. In order to maintain these classrooms and the hall, regular classes are held in each of them. The hall hosts most of the celebratory meets and cultural programmes which take place in the college. The library has a regular supply of books, and besides the college library, there is a subsection of it which is used by the students enrolled in the vocational courses. The college campus has a playground and a well-maintained garden. Both of these are important for maintaining environmental awareness among college employees as well as students.

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

For proper functioning of the different sections of the college, workload has been divided into groups, cells, committees, and councils. In this connection, admissions to both Intermediate and Degree I, II, and III sections in the faculties of Arts and Science are supervised strictly to ensure efficiency. For verification of the admission forms and sorting of the list according to the number of available seats, several groups of teachers are formed. These groups consider categories like SC, ST, OBC as well as other important fields including gender and disability. All these categories are included among the number of students to be admitted, in the way specified by the existing norms of reservation. Registration forms and examination forms in both faculties are verified before submission with an eye to avoiding errors. The Examination Department is in charge of conducting examinations and issuing mark sheets, and is run by the Controller of Examinations and the Assistant Controller of Examinations, who are assisted by clerks and grade IV staff. Apart from these major sections, there are committees to manage fields such as Sports, the Library, N. S. S., Students' Scholarship, Planning, Gardening and Beautification, Debating and Cultural Programmes, the College Magazine, Academic Tours, prevention of Ragging, and the Women's Harassment Cell. Teachers and non-teaching staff alike participate in the management of these activities.

6.1.2 – Does the institution have a Management Information System (MIS)?

No

6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Admission of Students	The recent process of online admissions through the OFSS portal has centralised most of the process however, the registering of students in their respective departmental attendance registers is done by the teachers. Every year after the completion of the online admission process, the college starts its implementation in all departments. The head of every department presides over the admissions to his own department and prepares a selection list based on the list of marks obtained by the examinees who have opted for online admission in the college
Human Resource Management	Besides developing skills directly related to education, the college also focuses on the development of the students' soft skills, which may be included in the field of Human Resource Management. Under the National Service Scheme (NSS), programmes are held to augment awareness about social issues such as environmental pollution, AIDS awareness, gender sensitization, etc. Scholarships are awarded to students from financially challenging backgrounds. Students' Credit Card system has been inaugurated to further ease the difficulties faced by the students in their studies
Library, ICT and Physical Infrastructure / Instrumentation	The ICT facilities of the college include computers in the departmental offices as well as the computer rooms of the vocational courses. Free wifi has been enabled inside the college campus which is accessible to all students and teaching and non-teaching staff in the college, with a unique user id and password being assigned to each of them. Power-point presentations are prepared by teachers to illustrate topics difficult to grasp, and students are encouraged to utilize the facilities being offered by the college. The college library issues textbooks, reference books and additional books of interest
Examination and Evaluation	Class test is conducted at the end of each paper. The score of class test is considered for the eligibility for

	final university examinations
Teaching and Learning	Classes are held regularly on the available working days and teachers attempt to finish syllabi in time. All the heads of the department in consultation with their faculty members prepare a lesson plan with an academic calendar before the commencement of the session. It is ensured that teachers move from easy to difficult, familiar to unfamiliar and at a pace that is easy for learners to maintain. The copy of the syllabus is distributed to the respective teachers. Every teacher draws his / her teaching plan broadly taking into consideration the ability of his/ her students

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

Best Practice - 1. Title of the practice: Automation of Examination and Evaluation related processes. 1. Objectives of practice a) timely and transparent publication of internal and external evaluation results, attendance b) update teacher evaluation c) redressal of student grievances if any d) communication between teachers and students e) examination related work 2. Context: While the measurement of learning cannot be adequately measured by the examination system, it is one of the systems available at the moment. Late publication of results, suspicions of result manipulation and not addressing genuine grievances of the students regarding the conduct of exams and publication of results will have a negative impact on the morale of the students and their results. 3. The practice: a. Adequate pre-notice about the date and schedule of tests conducted by the College b. Attendance entered regularly, students can view the same. c. Previous question papers are available in the College website. d. Examination related works are completely automated. e. Timely and transparent publication of internal and external evaluation results, attendance f. Internal marks are uploaded per semester, students can view the same. g. The final results are published and displayed as early as possible to ensure that students have an opportunity to go through them and bring forth complaints if any. h. Students are given the opportunity to evaluate teachers. Teachers can view their evaluation and do necessary rectification in their teaching methodology. i. Through teachers' portal, teachers can share notes and power point presentations with students. 4. Evidence of success: • Students have expressed their satisfaction with the system • The number of pending complaints from students at the end of an academic semester has gone down to negligible for all tests conducted by the departments. • Timely publication of results 5. Problems encountered: All students may not have net connection and access at home 6. Resources required: Lack of space becomes a problem when multiple exams are conducted and results need to be published simultaneously.

Best Practice - 2 : The Title of the Practice- Solid Waste Management 1. Goal : This practice aims to create awareness among general public on the importance of effective solid waste management through promoting private sector participation and encouraging reuse of nonbiodegradable wastes. 2. The Context : Waste Management is widely discussed in the present day. There are several issues related to in effective management of solid wastes. Keeping this mind an effort was taken create an awareness on the issue to prevent adverse impacts on man and other living organisms. Students and staff collected the plastics and other e-wastes from the college campus and houses and handed over it to various agencies for recycling. Training was given to produce decors and other articles of use from discarded plastics. 3. Evidence of Success : The school management and the teachers have reported they have advised the student community to deposit their food waste into the bio-bins and waste food management was thus effectively carried out in especially those schools where space is a limiting factor. The plastic and e-wastes that are quite difficult to be managed were collected and distributed to agencies that deal with e-waste management. The skill enhancement course on plastic reuse has enabled the student community to make beautiful products out of worn out plastics thus promoting plastic recycling. 4. Problems Encountered and Resources required : Though a major share of people were interested in effective solid waste management, there are some who neglect the aftermath of inefficient management practices. Hence, creating awareness to those people was a challenge. The residents of apartments were confused as to how the compost can be used as they have no space to carry out organic farming. Though the initiative is a just a beginning, it can bring in remarkable changes especially in an urban locality. An educational institution with a large number of students can play a significant role in preventing unethical waste disposal

strategies.
